

Looking to bring your projects and passion to life in the world of U.S. Infrastructure? Skip-Line is strategically positioned in the industry to revolutionize the safety of roadways.

PROJECT MANAGER

 **Location:** Anywhere (Remote)

Perfect for Project Managers who like to:

- Bring new tools to market for autonomous vehicle safety;
- Launch new products that positively impact U.S. road infrastructure;
- Evaluate and recommend changes that substantially impact the scope, budget, or schedule of multiple projects;
- Work with an innovative and passionate team!

Join the Skip-Line team today to play a key role in continuing Skip-Line's growth.

Overview

Skip-Line is building the next generation in infrastructure technologies. This role is pivotal to the development and success of Skip-Line products, and, on a larger scale, U.S. road infrastructure. This position ensures the diverse Skip-Line projects are being delivered properly, efficiently, and timely. Our innovative products are critical to the road markings industry and set a new standard of safety. The Engineering Project Manager will be critical in bringing these projects across the finish line.

Core Responsibilities:

- Timelines: Ensure that projects are delivered on-time, within scope, and within budget
- Metrics: Set realistic and practical metrics and goals to track project status.
- Communication: Communicate project status to team leaders throughout the organization.

Additional Responsibilities:

- Documentation: Create and maintain comprehensive project documentation
- Processes: Design ways to improve internal processes to maximize project efficiency such as through project management tools.
- QA/QC: Assist the support and production teams to troubleshoot, debug, and upgrade existing systems.
- Manage the development, implementation, and evaluation of project timelines.
- Ensure resource availability and allocation
- Establish and maintain relationships with third parties/vendors
- Measure project performance using appropriate systems, tools, and techniques
- Develop a detailed project plan to track progress

Competencies

- Collaborate effectively with team leaders across the organization.
- Good understanding of basic engineering concepts and terminology.
- Experience successfully managing projects with hard deadlines.
- Strong leadership skills.
- Strong interpersonal, communication, and presentation skills.
- Eye for design and attention to detail.
- Self-starter, highly motivated, and capable of working with little or no supervision.
- Passionate about product development, takes ownership and pride in their work.

Required Education and Experience

- Four-year degree in Engineering, Management, or other related fields.
- 3-5 years of experience in project management or other managerial fields.
- Preferred experience with Agile/Scrum.
- Proficient in Asana or similar project management software

AAP/EEO Statement:

Skip-Line is an EEO Company. It is the policy of Skip-Line to prohibit discrimination and harassment of any type and to afford EEO to all employees and applicants without regard to race, color, religion, gender, sexual orientation, gender identity, national origin, age, disability, genetic information, marital status, amnesty or status as a covered veteran in accordance with applicable federal, state and local laws.
